

SHUBHAM DONGARE

Frontend Engineer | React Developer (React.js, TypeScript)

Jaysingpur, Kolhapur, India

☎ +91-7038437761 | ✉ shubhamdongare2511@gmail.com

PROFESSIONAL SUMMARY

Frontend React Developer with hands-on experience building scalable, enterprise-grade web and mobile applications using React.js, TypeScript, and React Native. Strong understanding of component-based architecture, modern React Hooks, state management strategies, and API-driven UI development. Experienced in working on financial and accounting domains with a focus on performance, maintainability, and clean UI/UX. Comfortable collaborating in Agile teams and contributing to production-ready applications.

PROFESSIONAL EXPERIENCE

Junior Software Developer

B2A Technologies, Jaysingpur | March 2023 – Present

DhanMan – Accounting & Society Management Platform (Web)

- Developed and maintained a large-scale React + TypeScript application for accounting and society management.
- Built reusable, modular UI components using functional components and modern React Hooks.
- Implemented features such as invoice creation, ledger management, financial reports, dashboards, and data tables.
- Managed local and shared application **state** using React Hooks and Context API for configuration, authentication, and UI preferences.
- Integrated REST APIs using Axios and SWR for data fetching, caching, revalidation, and optimized server-state handling.
- Implemented responsive layouts using Material UI and Bootstrap to ensure cross-device compatibility.
- Applied performance optimizations such as memoization (useMemo, useCallback), lazy loading, and virtualized lists for large datasets.
- Ensured consistent UI/UX across modules by following shared design systems and theming.
- State Management: Local and component-level state using React Hooks; global application state using React Context API; server-side state using SWR (caching, revalidation, optimistic updates); form state using Formik with Yup validation; custom hooks for reusable and maintainable state logic.

DhanMan – Society Management Mobile Application (React Native)

- Designed and developed a React Native mobile application for society gate and visitor management.
 - Implemented features including resident verification, visitor tracking, and gate pass generation.
 - Integrated APIs and handled application state for smooth user workflows.
 - Successfully deployed the application on Android and iOS platforms.
-

PROJECTS

Stargateway – Hotel Reservation System

- Built a responsive hotel reservation web application using React.js, Spring Boot, and MySQL.
 - Implemented REST API integration for room availability, booking, and admin workflows.
 - Designed reusable components and managed UI state using React Hooks.
-

TECHNICAL SKILLS

Frontend: React.js, React Native, JavaScript (ES6+), TypeScript, HTML5, CSS3, Material UI, **Bootstrap:** State Management: React Hooks, Context API, SWR, Formik, Custom Hooks

API & Data: REST APIs, Axios, SWR, Error & loading state handling

Tools: Git, GitHub, Vite, npm, Grafana

Databases: PostgreSQL, MySQL

SOFT SKILLS

- Clear and effective communication
 - Team collaboration and problem-solving
 - Quick learner with strong adaptability
 - Ownership and responsibility for features
-

EDUCATION

Post Graduate Diploma in Advanced Computing (PG-DAC)

CDAC, Bangalore | Oct 2022

Bachelor of Engineering

Shivaji University, Kolhapur | Jul 2018

EXTRA-CURRICULAR & ACTIVITIES

- Organized and volunteered for multiple college-level technical and cultural events.
- Participated in social work initiatives with DSND Foundation.
- Interests include analysing sports, reading, and learning new languages.
