SUMMARY

Frontend React Developer with 3+ years of experience building scalable web and mobile applications using React.js, TypeScript, and React Native. Skilled in React Hooks, Context API, SWR, REST APIs, state management, performance optimization, reusable components, and responsive UI development. Experienced in financial, accounting, and society management domains with a focus on clean UI/UX and production-ready delivery with teams using Agile methodology.

EXPERIENCE

Junior Software Developer

B2A Technologies Pvt Ltd

Jul '23 — Present
Bangalore, India (Remote)

- Developing and maintaining a large-scale **React + TypeScript** web application for accounting, ERP, and society management workflows.
- Built and enhanced **10+ feature modules** including invoices, ledgers, reports, dashboards, approvals, visitor workflows, and dynamic data tables.
- Created **10+ reusable UI components** using React Hooks, Material UI, and Bootstrap, improving consistency and reducing repeated UI code.
- Integrated **50+ REST API endpoints** using Axios and SWR with caching, revalidation, conditional fetching, and targeted mutations.
- Reduced duplicate API calls by **40%–70%** and invalid API calls by **80%–100%** using shared SWR hooks and conditional fetch keys.
- Improved perceived page revisit performance by **50%–90%** and reduced post-action refetches by **30%–60%** through SWR cache reuse and targeted mutations.
- Optimized data-heavy screens using **useMemo, useCallback, lazy loading, and virtualized rendering**, reducing unnecessary renders by **20%–40%**.
- Managed local, global, and server state using **React Hooks, Context API, and SWR**.
- Collaborating with backend developers, designers, and QA teams in **Agile methodology** to deliver high-quality features.
- Contributing to **mobile development** using React Native and assisting in **Android & iOS deployments**.

PROJECTS

Dgtula – Accounting & Society Management Platform (Web)

Aug '23 — Present

- Enterprised grade web platform with enabled finance, admin, and society management users to track billing, collections, expenses, approvals, and operational performance through report-driven workflows.
- Contributed to invoice, bill creation, lists, dashboard and reporting screens that improved financial visibility, decision-making, and day-to-day operational efficiency.

Dgtula – Society Management Mobile Application (React Native), B2A Technologies

Aug '25 — Present

- Mobile application for society operations, covering visitor management, resident verification, approvals, gate passes, dashboards, and operational reports.
- Worked on community-focused workflows including annual collection reports, payment reminders, defaulter tracking, tickets, notices, water tanker entry, invoices, bills, and payment history records.
- Contributed to report-driven mobile screens that helped residents, security guards, and society teams track collections, dues, visitor activity, service requests, and operational updates.

SKILLS

Programming Languages JavaScript (ES6+), TypeScript

Frontend Technologies React Js, React Native, HTML, CSS3, Material UI, Bootstrap, Tailwind Css

State Management React Hooks, Custom Hooks, Formik, Context API, Zustand

API & Data Handling REST APIs, Axios, SWR, Error & Loading State Handling

Databases PostgreSQL, MySQL

Tools & Environments Git, GitHub, npm, Grafana, Jenkins, Agile Methodology

EDUCATION

Post Graduate Diploma in Advanced Computing, CDAC

Mar '22 — Sep '22
Bangalore, India

PGDM in Project Management, Inifini Institute of Project Management

Jul '19 — May '20
Pune, India

Bachelor of Engineering, Shivaji University

Jul '14 — Jun '18
Kolhapur, India
